Notes:

Compiled by Ravi Menon by merging two sets of data.

* MOPGC (1990).

** LIM KIM CHEW (1996). Bunch component studies over the past two decades. *Proc. of the Oil and Kernel Production in Oil Palm - A Global Perspective*. 27-28 September 1996, PORIM, KL. p 133-150 based on actual studies conducted by Guthrie for 23 years on the same palms.

Calculated figures assuming an extraction efficiency of 0.94.
