## Approximate Lifting Velocities of Palm Fibre, Nuts and Shell

	(Velocity in metres/second)
Fine fibre	lower than 2
Dry normal fibre	4
Wet fibre	6
Small shell	10
Average shell	12 - 14
Small kernel	14
Small nut	16
Large shell	16
Average kernel	18
Average nut	20 - 24
Large kernel	20
Large nut	24 - 28

(From tests carried-out at the Mongana Research Station).
